E-MAGAZINE

Computer science& Engineering Department

Computer Science and Engineering (CSE) is the most lucrative and competitive course to study since its inception and is one of the most sought after courses in engineering these days. This program is designed to provide students with the fundamentals of computer science, both hardware and software, and the application of Engineering concepts, Techniques and Methods to both computer systems Engineering and Software system design.

The Department of Computer Science and Engineering at CMRTC is renowned for cutting edge research and for imparting state of the art education. Computer science and engineering students will learn about basic engineering techniques, as other engineering students, during first year course. These techniques include Engineering Mathematics, Physics, Chemistry and Engineering drawing. From second year on wards they are exposed to core computer science subjects like programming, data structures, Digital logic, Theoretical computer science, Algorithms, Computer networks, Operating systems, Web technologies, Databases and Computer Architecture are few to mention.

The department of CSE aims to give a strong foundation in computer science and problem-solving techniques. The programs have been planned to offer a blend of computers, communication technologies and other information retrieving/processing tools so as to provide the student with the requisite know-how for solving real life problems thereby enabling them to enter the world of opportunities with flying colors and capitalize the huge IT market.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

This is really an excellent field to have opportunities both in software companies and higher studies. As computing is extensively applied to almost every walk of life it created massive jobs for Computer Engineering students. On the same time more demand and application kept its research funding alive attracting many students to opt for higher studies.

Our Vision:

To provide a quality Computer Science and Engineering education in collaboration with industries and research organizations to enable the students to solve real life engineering problems

Our Mission:

- * To educate the students in fundamental principles of computing and develop the skills needed to solve practical problems using contemporary computer-based technologies.
- * To provide State-of-the-art computing laboratory facilities to promote industry-institute interaction to enhance student's practical knowledge.
- * To inculcate self learning abilities, team spirit and professional ethics among the students to serve the society.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Program Educational Objectives (PEO):

PEO1	Excel in professional career and/or higher education by acquiring in depth knowledge in computer-base technologies.
PEO2	Apply design and development principles in the construction of software systems of varying complexity.
PEO3	Practice the profession with ethics and make them responsible citizens to promote Industrial progress growth and societal transformation.

Program Outcomes (PO):

P01	An ability to apply knowledge of Science, Mathematics, Engineering & Computing fundamentals for the solutions of Complex Engineering problems.
P02	An ability to Identify, formulate and analyze complex engineering problems using first principles of mathematics and engineering sciences.
P03	An ability to design solutions to complex process to meet desired needs.
P04	Ability to use research-based knowledge and methods including design of experiments to provide valid conclusions.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

PO5	An ability to use appropriate techniques, skills and tools necessary for computing practice.
PO6	Ability to apply reasoning informed by the contextual knowledge to assess social issues & responsibilities relevant to the professional engineering practice.
PO7	Ability to understand the impact of engineering solutions in a global, economic, environmental, and societal context with sustainability.
PO8	An understanding of professional, ethical, Social issues and responsibilities.
PO9	An ability to function as an individual, and as a member or leader in diverse teams and in multidisciplinary settings.
PO10	An ability to communicate effectively on complex engineering activities with in the engineering community.
PO11	Ability to Demonstrate and understanding of the engineering and management principles as a member and leader in a team.
PO12	Ability to engage in independent and lifelong learning in the context of technological change.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Program Specific Outcomes (PSO):

PSO1	Apply the fundamental knowledge for problem analysis and conduct investigations in computer science engineering for sustainable development.
PSO2	Design and development of solutions by using modern software for the purpose of execution of the projects in the specialized areas.
PSO3	Inculcate effective communication and ethics for lifelong learning with social awareness

Chairman:

Chairman of CMR Technical Educational Society, Sri C. Gopal Reddy with a vision to impart quality education established the CMR Technical Campus in the year 2009, which has produced nearly 5000 Engineers and Management graduates. His dedicated hard work and planning of more than two decades has resulted in establishment of various educational institutes including CMR Group of Institutions in the vicinity of Hyderabad. The enthusiastic learner present within him has explored to embark various countries in pursuit of excellence. He himself being engineer by profession reads the minds of incoming students and with his versatile experience he formulates policies that cater to the academic and professional well being of the institutions. He has always been a role model to his employees in terms of his dedication and commitment towards the work. As a strategic thinker he charted the road map for incremental development of group of institutions, which is evident by attaining Autonomous status and recognitions from elite national agencies. He has threaded a bond of belonging with the Alumni by

Secretary:

Smt. C. Vasantha Latha, the Secretary of CMR Technical Campus is a visionary educationist. Her decade long hard work has resulted in growth of the CMR Technical Campus to its current heights. She has been instrumental in aligning major policies and regulations, driving towards imparting quality education. She being a good Orator has delivered lectures on Women empowerment and employment at various gatherings. The Secretary has been instrumental in successful conduction of Alumni meets across the globe. She never shies while helping under privileged students and their families which are reflected in her Philanthropic activities.

Director:

Dr. A. Raji Reddy, a 1990 Batch Mechanical Engineer, alumnus of Nagpur University was born on 20th April, 1969 in Madikonda Village, Warangal District, Andhra Pradesh (Currently Telangana).

Though hailing from village background, his passion towards education, right from his childhood has landed him in one of the country's premier education institution for obtaining his masters degree from Regional Engineering College, Warangal (Currently known as NIT, Warangal) in the year 1992. His pursuit for education did not end there and marched towards attaining Doctoral degree from the renowned Osmania University in Mechanical Engineering with Solar Energy as specialization in the year 2008.

With clear objectives in the life, and chaste intentions to serve the nation in the field of education, he started his career in the honourable profession of teaching and served in various capacities as Lecturer, Assistant Professor, Associate professor and Professor in institutions like KITS - Ramtek, KLCE - Vaddeswaram, Guntur and KITS – Warangal.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

R&D Dean:

Dr. Ashutosh Saxena is an industry expert and academician with over two decades of experience, 100+ international publications, 30+ filled patents out of which 26 are US granted patents, and a book on PKI: Concept, Design and Deployment (Tata McGraw Hill 2004) to his credit. His research interest is in the areas of information security and privacy. He worked at IUC-DAE facilities at Indore, IDRBT Hyderabad and supervised two PhD Scholars. He served as Adjunct Faculty at NIT Warangal. He Joined Infosys in June 2006 and worked as Principal Research Scientist & AVP, at Infosys Labs, Hyderabad (till Sep. 2016). He is Five times winner of the Infosys Excellence Award. In 2014 he received Award for maximum publishing in CSI-Communication from Computer Society of India. He earned a Master of Science (1990), Master of Technology (1992), and a Doctorate (PhD) in computer science (1999) from DAVV, Indore, and has qualified CSIR-UGC examination. He also received the BOYSCAST Post- Doctoral Fellowship (2001 – 2002) from Ministry of Science and Technology, Government of India, to conduct research at Information Security Research Centre, Queensland University of Technology, Australia. He is Life Member of Computer Society of India, Life Member of Cryptology Research Society of India and Senior Member of IEEE Computer Society.

DEPARTMENT OF COMPUTER SCIENCE & ENGINEERING

Head of the Department:

Dr. K. Srujan Raju is currently working as Dean Student Welfare and heading Department of CSE at CMR Technical Campus. He obtained his Doctorate in Computer Science in the area of Network Security. He has more than 19 years of experience in academics and research. His research interest areas include Data Mining, Cognitive Radio Networks and Image Processing. Dr. Raju is presently working on 2 projects funded by Government of India, has filed 7 patents at Indian Patent Office, edited 10 books from Springer publications - AISC series, authored 4 books, contributed chapters in various books and published 25 papers at reputed and peer-reviewed International Conference and Journals. His involvement with students is very conducive for solving their day to day problems. He has guided various student clubs for activities ranging from photography to Hackathon. He mentored more than 100 students for incubating cutting edge solutions. He has organized many conferences, FDPs, Workshops and Symposiums. He has established the Centre of Excellence in IoT, Data Analytics. Professor Raju has acted as reviewer and Technical Member for many conferences and is editorial member for few journals. Raju received Significant Contributor and Active Member awards by Computer Society of India - Hyderabad Chapter.

Research Centres:

A dedicated Research Centre is the back bone for productive research outcome. CMR Technical Campus is no exception in establishing Centres in allied areas of current technologies. To match the requirement of industry, the institute has initiated several centres in every department.

Centre for Mobile and Web Technologies (CMWT) is an emerging disruptive phenomenon of the present trend for implementing real time ideas with latest technologies like Android, and IOS. Centre for Internet of Things (CIOT) is established to cater the need of academic projects, but also used for implementing real time ideas with sensors, micro-controllers, communication protocols and cloud technologies. Centre for Data analytics (CDA) is a facility that centralizes institute Research and Development operations, stores, manages and disseminates its data, projects and training. It is created to Provide Domain knowledge with subject experts from industry and make ready for role of Business Analyst and Business Intelligence. Centre for Knowledge Engineering and Deep Learning (CKEDL) is established to focus on current emerging technologies in the field of AI and Deep Learning.

Consultancy:

Consulting at CMRTC is viewed as a dynamic learning process for the faculty. It provides an opportunity for them to share insights with practitioners and contributes to experimentation and new learning. Consulting brings the faculty in contact with real-life problems, and thus greatly enriches teaching and research. Consulting at CMRTC has been guided by several norms Consultancy is an academic activity. Projects are taken up only if they have a definite learning value. Faculty members do not solicit consultancy projects. The total time spent on consulting is voluntarily restricted, so that other academic responsibilities are met. CMRTC faculty can cater to a wide range of clients ranging from public and private sector corporations, financial institutions, government agencies and departments, cooperative societies, not-for-profit institutions, to international agencies/ clients/ organizations.
