ABOUT THE DEPARTMENT

Department of Electronics and Communication Engineering in CMRTC is popularly known as 'Branch of Consistency'. Consistency in all perspectives. In the current world scenario of Digitalization, Media & Communication, 5G Technologies and many more advancements in technologies related to automation, an ECE Graduate plays an important role in building of Nation through Science & Technology. The skills acquired by the students of ECE has landed them in many reputed companies like Mentor Graphics, L&T metro, DSP, Bosch, TCS, Hyundai, etc.. The experienced faculty are the driving force of the department. The Department offers **M.Tech in Embedded Systems** with an intake of 18.

Few achievements of the Department are:

- Department is accredited thrice by National Board of Accreditation [NBA], New Delhi.
- 35 Patents filed by the Department till date.
- Over 250 Papers published in reputed Journals.
- Established 03 Research Centres: 1. Centres for VLSI & Embedded System Design Centres for Signal & Image processing 3. Centre for advanced Communication System
- Signed MoUs with more than 20 Companies.
- Won 1st prize in Robotics Competition held by IIT Hyderabad, BITs Hyderabad.
- More than 2000 students are facilitated with Internship in companies like HAL, NRSC, BDL, NFC, DRDL, BHEL, ECIL, etc.
- Received funding from government bodies to a tune of 1 crore.
- Industrial Visits to Satellite launch station SreeHarikota, NRSC Shadnagar, Door Darshan Kendra, Ramanthapur, Air force Station, Hakimpet, Hyderabad Radio Station, L&T Metro Signalling and Control station, Nagole and many more places.
- Highest package of 11 lacks in Microsoft.
- Ongoing Consultancy work worth of 16 Lakhs.
- Over 400 students cleared the NPTEL certified Course with Elite Rating.
- Equipment worth 43.5 L from National Instrument laboratory under DST- FIST Scheme.

Shri C.Gopal Reddy

B.E (ECE), Manipal Institute of Technology Chairman

It is rightly said by our Bharat Ratna, Dr. APJ Abdul Kalam “Dream is not that which you see while sleeping, it is something that does not let you sleep.” Yes!!! Indeed, it was my dream, goal and ambition, to establish a Knowledge Center, a Temple of learning, i.e., “CMR Group of Institutions”, which can be witnessed today on sprawling area of 70 acres on Medchal Road, Hyderabad. Currently under CMR Group of Institutions, which was established in the year 2002, have 04 Engineering Colleges and 01 Pharmacy College with over 16000 students studying in various streams of Engineering, Management and Pharmacy. The thirst for Excellence & Service has never subdued among us, thus we wish to make deeper inroads in the field of education by venturing into university, named “CMR Global University”, which will be seeing the light of day soon.

As it is said, Rome is not built in a day; CMR is also not built in a day. 20 years of dedication, commitment and hard work has resulted in CMR Group of Institutions. One of the strengths of CMRGI is its strong Alumni. Till date, CMRGI has successfully produced over 18000 Engineers and 4500 Managers and 1200 Pharmacists. As the Tagline of the Group goes, “Think Placements, Think CMR”, we have been the pioneers in training and placing the students in many reputed companies with good packages. I feel proud to see my students’ donning prominent roles in many of the reputed companies.

Smt. C. Vasantha LathaSecretary

As narrated by Swami Vivekananda, **“We want the education by which character is formed, the strength of mind is increased, the intellect is expanded, and by which one can stand on one’s own feet”**, we at CMR Technical Campus, believe quality education has the power to transform not only individuals but societies and the nation in large.

Our endeavor at CMRTC is to provide the right blend of education and all such necessary components which make students stay in the campus fruitful. The existence of various associations and Clubs, Departmental Associations, Professional Chapters in the campus ensure all-round development which an individual requires. Being in the field of Education for more than a decade, I strongly feel, **Education is the key for women to achieve economic independence**. CMRTC strongly supports women’s education and all such measures for their safety are taken care by our well functional Women Empowerment Cell of the institute. I extend a warm welcome to Engineering and Management aspirants to join CMR Technical Campus.

Dr. A. Raji Reddy
Professor & Director

Dr. A. Raji Reddy, is a 1990 Batch Mechanical Engineer from Nagpur University. He obtained his Masters' Degree from Regional Engineering College [NIT] Warangal in the year 1992 and Doctoral degree from Osmania University in Mechanical Engineering with Solar Energy as specialization in the year 2008. In his **28 years of service**, he has served in various capacities of administration, research, and academic roles. He even has two years of **Industrial experiences in M/s. Ashok Ley Land Ltd.**, (Ductron Casting Unit), Uppal, Hyderabad.

Currently he has **10 Patents filed** on his name and is Investigator of **03 Research Projects** to the tune of **Rs. 90 Lakh as Grant** from Govt. of India. He has successfully guided **10 M. Tech Projects** and is currently guiding **03 Research Scholars for their Ph.D.** His research areas include solar thermal applications, Biomass conversion technologies, Solar cooking and Heat transfer. There are over **40 Research Articles** to his credit in peer reviewed & reputed Journals & Conferences. He is reviewer of few Elsevier published Journals. Recognitions and awards have been part of his career, which highlights the dedication and commitment he has laid down in fulfilling the responsibilities assigned to him. He is entitled as life member of Indian Society for Technical Education, Solar Energy Society of India and International Solar Energy Society of India. It was indeed an avenue to receive an **award from Deputy Chief Minister of Telangana** for effective leadership qualities in 2018. Received **Acharya Ratna Award** from Indian Servers in the year 2019. Received **Bhishma Acharya Award** from Andhra University in the year 2022.

Dr. D T V Dharmajee Rao

B.Tech.(CSE), M.Tech.(CST), & Ph.D.(CSE)

**Professor of CSE & Dean Academics
dean.academics1@cmrtc.ac.in**

Dr. D.T.V. Dharmajee Rao is currently working as Professor in the Department of Computer Science and Engineering and Dean (Academics) at CMR Technical Campus, Kandlakoya (V), Medchal Road, Hyderabad- 501401. He received B.Tech. degree in Computer Science and Engineering in 1993 and M.Tech. degree in Computer Science and Technology in 2001 from Andhra University Visakhapatnam and Ph.D. degree in Computer Science and Engineering on the topic “Computational Acceleration of Deep Neural Network Training Algorithm for Data Classification” in 2020 from JNT University, Kakinada, Andhra Pradesh.

He has over 26 years of teaching experience. During his teaching career, he taught various subjects like AIML, Data Mining, Computer Networks, Database Management Systems, Operating Systems, C, C++, and JAVA Programming, etc.

He got published more than 24 papers in National, International Conferences and Journals. His current Research interests include Artificial Intelligence, Machine Learning, Deep Learning, Data Mining and High Performance Computing (OpenMP, MPI, PThreads, CBLAS, CUBLAS, and CUDA). He guided 38 B.Tech. Students Project Batches and 20 M.Tech. Students. He played active role in organizing a couple of FDPs, seminars and conferences in the field of Computer Science and Engineering, convened various technical and cultural fests and annual day celebrations successfully. Further, he has actively monitored entire campus ICT Networking process for several years in previous organization.

Dr.Ashuthosh Saxena

Professor of CSE & Dean (Research and Development)

Dr. Ashutosh Saxena is an industry expert and academician with over two decades of experience, 100+ international publications, 30+ filed Patents out of which 26 are US Granted Patents, and a book on PKI: Concept, Design and Deployment (Tata McGraw Hill 2004) to his credit. His research interest is in the areas of Information Security and Privacy. He worked at IUC-DAE facilities at Indore, IDRBT Hyderabad and supervised two PhD Scholars. He served as Adjunct Faculty at NIT Warangal. He Joined Infosys in June 2006 and worked as Principal Research Scientist & AVP, at Infosys Labs, Hyderabad (till Sep. 2016). He is Five times winner of the Infosys Excellence Award. In 2014 he received Award for maximum publishing in CSI-Communication from Computer Society of India. He earned a Master of Science (1990), Master of Technology (1992), and a Doctorate (PhD) in computer science (1999) from DAVV, Indore, and has qualified CSIR-UGC examination. He also received the BOYSCAST Post-Doctoral Fellowship (2001 – 2002) from Ministry of Science and Technology, Government of India, to conduct research at Information Security Research Centre, Queensland University of Technology, Australia. He is Life Member of Computer Society of India, Life Member of Cryptology Research Society of India and Senior Member of IEEE Computer Society.

Dean (R&D) play an active role in framing guidelines for R& D policies like IPR policy, Consultancy policy, Publication Reward policy and their execution. He also guides faculty and students in preparing Project Proposals, Patents, Establishment of Start Ups and Incubation Center. He is assisted by R&D coordinators, one from each department.

Prof. G. Srikanth (Professor & HOD)

Prof. G. Srikanth, holding position of Head, Department of Electronics & Communication Engineering, having 20 years of Teaching and research experience. His area of Specialization is VLSI & Embedded Systems. He has 16 International and national Journals to his credit. Life time member of IETE, ISTE and Member of IEEE. Currently He is working on 2 projects Funded by Department of Science & Technology. He worked as convener for several Faculty Development Programs conducted by the department in association with premier institutes like IITs & NITS and worked as convener for several Conferences. He also has 2 patents filled in his account.

Under his guidance department Centre's are executing various Activities like proposal writing for different funding agencies, research publication, Execution of students' academic project in the Centre's, conducting incubation & innovation activates and organizing Faculty development programs and Conferences on regular intervals.

VISION

The Department of Electronics and Communication Engineering endeavors to become a center of academic excellence and research.

MISSION

To provide the students with the state of art technologies to meet the growing challenges of the industry and Society.

To promote research and consultancy through constant interaction with the outside world.

To inculcate self-learning abilities, team spirit, and professional ethics among the students to serve the society.

Program Educational Objectives (PEO)

S.NO	Program Educational Objectives(PEO)
PEO1	Progress in professional career and higher education in Electronics and Communication Engineering and allied fields.
PEO2	Demonstrate self learning skills, team spirit and professional ethics for beneficial development of the society.
PEO3	Solve real life problems of Electronics and Communication Engineering and allied fields resulting in significant societal benefit.

Program Specific Objectives

S.NO	Program Specific Objectives(PSO)
PSO1	An ability to understand the concepts of basic Electronics & Communication Engineering and to apply them to various areas like Signal processing, VLSI, Embedded systems, Communication Systems, Digital & Analog Devices.
PSO2	An ability to solve complex Electronics and Communication Engineering problems, using latest hardware and software tools, along with analytical skills to arrive cost effective and appropriate solutions.
PSO3	The Graduates will be Equipped with necessary soft skills, aptitude and technical skills to work in the core industry and IT sector as an individual or as a team member.

Program Outcomes(PO)

S.NO	Program Outcomes(PO)
PO1	To apply the knowledge of Mathematics, Science, and Engineering concepts in solving Complex Engineering problems.
PO2	Identify, formulate, and solve complex problems to achieve demonstrated conclusions using mathematical principles and engineering sciences.
PO3	To design solutions for complex engineering problems with appropriate consideration for society.
PO4	To use research-based knowledge and research methods including the design of experiments to provide valid conclusions.
PO5	To select and apply appropriate techniques for the design & analysis of systems using modern CAD tools
PO6	Apply the contextual knowledge to assess societal, health, safety, and cultural issues and endure the consequent responsibilities relevant to the professional engineering practice.
PO7	To understand that the solutions have to be provided taking the environmental issues and sustainability into consideration.
PO8	Develop consciousness of professional, ethical, and social responsibilities as experts in the field of Engineering
PO9	To function effectively either as a member or a leader in multidisciplinary activities.
PO10	To communicate effectively to both the peers and the others
PO11	To apply engineering & management principles in their own / team projects in a multidisciplinary environment.
PO12	To Realize the need for lifelong learning and engage them to adopt technological change.

TEACHING FACULTY

The department has qualified and well-experienced faculty with Post Graduate and Doctoral degree in the field of Electronics and Communication Engineering. Faculty members are actively involved in research activities in the fields of their specialization. They have published a good number of research papers in International / National Journals and Conferences.

Function of IIC

To conduct various Innovation, IPR and entrepreneurship-related act prescribed by MIC in time bound fashion.
 Identify and reward innovations and share success stories.
 Organize periodic workshops/ seminars/ interactions with entrepreneurs, professionals and create a mentor pool for student innovators.
 Network with peers and national entrepreneurship development organizations.
 Create an Institution's Innovation portal to highlight innovative projects carried out by institution's faculty and students.
 Organize Hackathons, idea competition, mini-challenges etc. with involvement of industries.

The Innovation /Prototype Validation –Converting into a Start-Up and had diversified from a majorly a Software solutions company to a product manufacturing company. The expert shared the entire journey of how they and their team converted an idea right from the ideation stage to a prototype and then from a prototype to an actual startup. The expert shared all the stages involved from prototype development to conversion into a commercial startup through this practical example which ensured that the students could relate to the concept and understand the process of converting a prototype into a commercially viable startup.

1.Objective of the Program:

the human following robot is an automobile system that has ability to recognize obstacle, move and change the robots position toward the subject in the best way to remain on its track.The future of robotics evokes both exciting and cautious undertones as employees learn how to navigate human-robot workforce.

2. Benefits /Outcome of the Program:

1. Better quality and consistency

Along with other tech — such as the industrial internet of things (IIoT) or 3D printing robots — industrial robots are able to provide better production quality and more precise and reliable processes. Added benefits also include reduced cycle times and real-time monitoring to improve preventive maintenance practices.

2. Maximum productivity and throughput

An industrial robot increases speed for manufacturing processes, in part by operating 24/7. Robots don't need breaks or shift changes. The speed and dependability of robots ultimately reduces cycle time and maximizes throughput.

3. Greater safety

Using robots for repetitive tasks means fewer risks of injury for workers, especially when manufacturing has to take place under hostile conditions. In addition, supervisors can oversee the process online or from a remote location.

4. Reduced direct labor costs

The cost of having a person handle many manufacturing operations is often more expensive than robot. This can also free up workers so their skills and expertise can be used in other business areas, such as engineering, programming and maintenance.

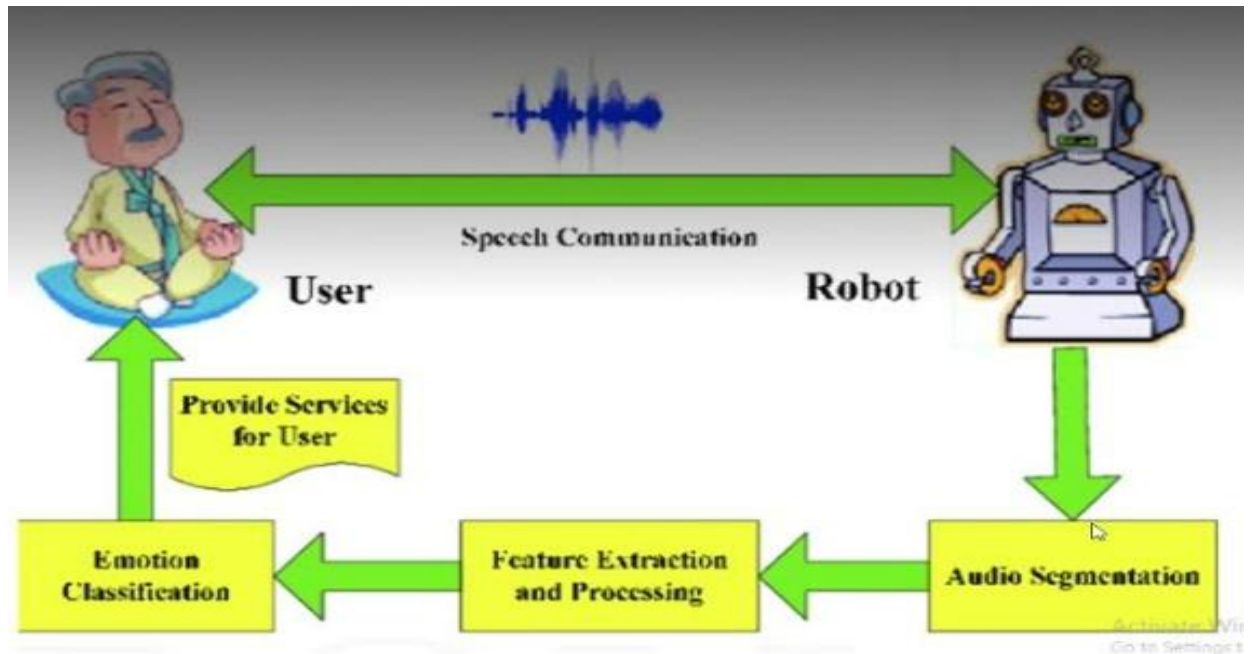

5. Keeping manufacturing in the U.S.

Some argue that robots are taking jobs away from U.S. workers, but that's not necessarily the case. Industrial robots there are typically integrated into a series of operations that require human expertise. For example, you could have a robot welding parts that are handed off to a person to perform a task that requires a human's intuitive "if, then" thinking.

3. Description:

Today's industrial robots work in a wide range of industries, from semiconductors and automobiles to plastics processing and metal forging. Pretty much any repetitive operation is a great job for a robot, particularly if it's dangerous or difficult for people. The application of robots in manufacturing industries is particularly valuable. Robots have been used for high-volume operations, but as the technology advances and the cost of industrial robots decline, more options and opportunities are opening for medium- and small-sized operations.

2. Robotics Club Event:

Coordinators: Dr. K. Bharat Kumar, M. Sravanthi

Event Date: 15th October 2022

Theme: AR-BOT : Reported by Brahmani, the Secretary of Robotics Club

In CMR Technical Campus, under the aegis of Department of Electronics & Communication Engineering, organized a Technical Project Expo- **AR-BOT**, in association with Robotics Club. The inauguration of the Project Expo event was held on **14th October 2022**, at 1:00PM. We chose Microprocessor and Micro-controller laboratory as a venue.

The major objective of organizing this exhibition was to provide a platform to unleash the potential of the students by showcasing their innovative projects and provide an opportunity for the students to demonstrate their learning experience.

Honorable Guest of Honor, HoD of ECE Department Prof. G. Srikanth sir and Prof. Sudha Arvind madam inaugurated the event. Over 70 students exhibited 18 projects in the expo. Prof. G. Srikanth sir, Prof. Sudha Arvind madam along with Dr. K. Bharath Kumar sir and Ms. M. Sravanthi madam went round the exhibits and interacted with students.

Objectives of the Technical Project Expo- AR-BOT:

- To empower every student to achieve their truest potential.
- To realize engineering passion with respect to build something innovate for the future.
- To enhance industry and institute interaction.
- To motivate students to present their innovative ideas. List of Projects presented in the expo:

1. **ARDUINO BASED ANTI SLEEP ALARM SYSTEM FOR DRIVERS**
2. **ALCOHOL SENSING ALERT SYSTEM USING GSM MODULE**
3. **MARS ROVER**
4. **SAFE DISTANCE MAINTAINING CAR ROBOT TO AVOID ACCIDENTS**
5. **RADAR SYSTEM**
6. **SMART CLOTHES LINE**
7. **RADIO FREQUENCY IDENTIFICATION**
8. **GARBAGE SEGREGATION ROBOT**
9. **HAND GESTURE VOCALIZER**
10. **ARDUINO BASED PAPER PIANO**

15. **FIRE FIGHTING ROBOT**
16. **SAFE DISTANCE CAR**
17. **MEDBOT**
18. **OBSTACLE AVOIDING ROBOT**

Glimpses of the Inaugural Ceremony

Thus, the event generated a high degree of excitement in the faculty and students of the college, and became grand success. Participation certificates were issued to all the participants for their active participation. By this a memorable event came to an end at 3:30PM on 14/10/22.

ABOUT THE SPEAKER:

Name: Dr. Ram K Aluru

Designation: Dr Ram K Aluru, CEO and Co- Founder, EdutechEX

Dr Ram K Aluru, CEO and Co- Founder, EdutechEX .He has done his Ph D in Quantum Physics at St. Andrews, Scotland, UK. He has 10+ years of experience in R&D and Quantum Technologies.He Has 10+ years of experience in education and research within india and Abroad

He has been given many Responsible Functions in EdutechEX. One is being conducting webinars for College Students wherein we talk about abroad education and also highlighted the career opportunities in different countries like USA, UK, and Canada etc.

The screenshot displays a Zoom meeting window. At the top, a green banner reads "You are viewing Dr. Ram - EDUTECHEX's screen". The main area shows a presentation slide with the EdutechEX logo and the text "Unlock Your Potential". Below this, a blue box contains the text "Higher Education Abroad - Careers & Opportunities!" and features a woman holding a book, surrounded by flags of the USA, Canada, New Zealand, and the UK. The slide also mentions "ECE,CMR Technical Campus" and "10th August 2022 6:00 PM - 7:30 PM". The Zoom interface includes a top menu bar with options like File, Home, Insert, Draw, Design, Transitions, Animations, Slide Show, Record, Review, View, and Help. Over 79 students took part in this workshop which involved Programming basics & Robot Assembling which made students actively participated and learned something new.

In the end of the session a test was conducted for the students which was held for a duration 30 minutes where the students were given some challenges to solve

The best 2 teams were selected and were promoted for the next level where they will be taken to IIT VARANASI in March 2023.

Participation certificates were issued to all the participants, and the students who were selected for the next level were issued a certificate of excellence. Also the students were filled a feedback form where they reviewed the session based upon their experience and shared some good reviews.
