

DESIGN AND REVIEW OF SYLLABUS: FEEDBACK ACTION TAKEN REPORT

Academic Year: 2021-22

S.No.	Stakeholder	Feedback	Action Taken
1.	Student	Practical Skills needs to be improved in emerging technologies.	As part of BEET Lab, every student has to do one project on emerging technologies like 3D Printing, Internet of Things, Robotics.
		Training needs to be improved for Advanced Learners to crack high packages	Apart from regular Campus Recruitment Training Classes, Product training is also provided for the Advanced Learners. For practicing coding problems, Neo Colab and NeoPAT online platforms are provided
		Internships in the institute needs to improve	Training and Placement cell also providing opportunities in companies to do internship. Departments are also encouraging the student to do internship during inter semester breaks.
		More Number of students should be encouraged as part of Club Activities and Extension activities	It is made mandatory that every student of the institution should be the member of any one of the Club.
2	Faculty	Curriculum needs to improve and Emerging courses need to be added	In Board of Studies Meetings, the same is informed and modifications are done in possible extend. Courses like Artificial Intelligence, Machine Learning, Deep Learning are introduced.
		Remote access to library resources need to be provided.	Online Library portal Nimbus has launched and it will provide access to all library resources including e-journals.
3	Employer	Industry Exposure to student needs to be improved	Alumni and Industry expert's sessions were organised frequently. Industry visits are reinitiated after the Covid Pandemic.
		Participate and Teamwork culture need to be improved	The Inter-disciplinary final year projects were encouraged. Students are encouraged to participate in codathons and hackathons.
		Need to be flexible in on boarding location.	Students were counselled by the respective mentors

			and T&P cell regarding on boarding location.
4	Alumni	Focus more on practical and coding	Code contests has been conducted regularly on every Sunday.
		Certification courses on emerging technologies, Open source softwares needs to be improved	Certification courses like Google Cloud Certifications, IIT Bombay Spoken Tutorial Certifications were encouraged.
		Entrepreneurship development programs need to conducted	EDC-Cell in association with IIC is continuously organizing the awareness programs on Entrepreneurship. Students are encouraged to meet EDC Cell coordinator with their Ideas and for the support.
