# FEEDBACK

For me, CMRCET MUN was like a memorable one where I learned what MUN was cause it was my first time. Apart from everything what I got to know , what MUN is , was a group of people trying representing each country come together to solve the world issues on particular agenda in respective committees. As I was in the International Press committee I learned how the press works crucially in transporting the information of what all has happened to the public in a crystal clear way.It was very well informed and looking forward to participate in such events which helps us to be aware of what's happening in and out of our country.

- Sai Sneha (IInd year CSE)

It was a really great experience as a first timer.The three days of the CMRCET MUN were really informative and was a lot of fun. This MUN was spectacular and also got to know how the real MUN works. I learnt how to research,speech,how to negotiate and also drafting skills and also it helped me to build my network.

- M. Akhila (IInd year CSE)

# FEEDBACK

I've represented the Federative Republic of Brazil in UNODC. Though I had well-versed knowledge about the country's stance, policies and position in drugs and crime, it was a pretty tough job to defend a country that's leading in organized crime. For me MUN is a political problem solving game that enables a delegate to practice diplomacy. The committee was a success which came up with 2 Draft Resolutions out of which one passed. I've been a sponsor in a DR which was scrapped due to inefficiency in the solutions but still I've learnt more about organized crime in different nations during my research.

- Navaneeth (IIIInd year CSM)

Cmrcet MUN was organized very well.. And the facilities were very good..transportation was little problematic and eb was experienced one so it went in a smooth way.

- Sindhu Sharma (IInd year CSM)

# FEEDBACK

The Model United Nations (MUN) conference held by CMRCET campus in 2023 was a resounding success, with students from various colleges participating in the event. The students from CMR Technical Campus took part in the conference with great enthusiasm, representing various countries and engaging in stimulating debates and discussions. The event was a great learning experience for them, providing them with a platform to hone their skills in diplomacy, negotiation, and public speaking. The students from CMR Technical Campus were able to demonstrate their knowledge and expertise, winning multiple awards and mentions in various categories. Overall, the MUN conference was an enriching experience for the students, providing them with the opportunity to showcase their talents and learn from their peers.
