

## DEPARTMENT OF CSE (AI&ML)

### REPORT

# “ONE DAY WORKSHOP ON REACT”

#### **The objective of the Program:**

- To promote React as a valuable tool for building user interfaces.
- To educate developers about the latest features and best practices for using React.
- To build community among developers who are interested in React.

#### **The Outcome of the Program:**

- Participants will learn the fundamentals of React, including its component-based architecture, state and props, and lifecycle methods.
- Participants will be able to build React components and use them to create dynamic and interactive user interfaces.
- Participants will gain a better understanding of how React works and how it can be used to build modern web applications.
- Participants will have the opportunity to network with other developers who are interested in React.

**Date:** 11.05.2023

**Student Participants number:** 40

**Faculty Participants number:** 00

**Expenditure amount if any:** 00
