DEPARTMENT OF CSE (AI&ML)

REPORT

"ONE DAY WORKSHOP AI AND MACHINE LEARNING PROJECTS FOR BEGINNERS"

The objective of the Program:

- Introducing participants to the fundamental concepts of artificial intelligence and machine learning.
- Providing a hands-on learning experience through practical exercises and projects.
- Familiarizing participants with common AI and machine learning tools and frameworks.
- Exploring real-world applications of AI and machine learning in various industries.

The Outcome of the Program:

- Understanding the basics of AI and machine learning concepts.
- Learning about popular machine learning algorithms and their applications.
- Gaining hands-on experience in building simple AI and machine learning projects.

Date: 27.06.2023

Student Participants number: 50

Faculty Participants number: 00

Expenditure amount if any: 00
