

# ARTIFICIAL INTELLIGENCE MEDICAL AND ENGINEERING RESEARCHERS SOCIETY

## Lifetime Achivement Award

Presented to

**Dr. A. Raji Reddy**

For his exemplary contributions to Mechanical Engineering, especially in the field of Solar Energy. Dr. Reddy's innovative research, including 10 patents and leadership in overseeing significant projects, has significantly advanced solar thermal applications, biomass conversion technologies, and heat transfer. His dedication to academia and industry, complemented by national recognitions and awards, underscores his commitment to sustainable engineering solutions.

**Dr. A. Raji Reddy**

In the quest for energy, pure and bright,  
Dr. Reddy stands, a figure of light.  
With solar beams and biomass dreams,  
He crafts the future with sustainable schemes.  
From academia's halls to industry's might,  
His innovations bring solutions to light.  
Ten patents to his name, a testament true,  
To the vision he carries, ever so new.  
Here's to Dr. Reddy, whose work does inspire,  
A beacon of hope, in solar's grand choir.  
**Dr. A. Raji Reddy**

**Dr. A. Raji Reddy - A luminary in the domain of renewable energy, whose pioneering work in solar energy exemplifies the fusion of innovation with sustainability. May his journey continue to illuminate the path towards a greener tomorrow.**

*D. Sai Satish*
