

DEPARTMENT OF CSE (AI&ML)

REPORT

“WORKSHOP ON GENERATIVE AI”

Program Objectives:

- Ensure participants grasp the basic principles and concepts of Generative AI, laying the groundwork for deeper exploration.
- Provide practical exercises and tutorials for participants to gain firsthand experience in building and deploying generative models, enhancing their practical skills.
- Showcase real-world examples across various domains to illustrate the versatility and potential applications of Generative AI.
- Foster awareness of ethical issues and societal impacts associated with Generative AI, encouraging responsible usage and development practices.

Program Outcomes:

- Participants will gain a deeper comprehension of Generative AI principles and applications, enabling them to apply this knowledge effectively.
- Attendees will acquire hands-on experience in building and deploying generative models, fostering their ability to create AI-generated content.
- The workshop will promote critical thinking and ethical awareness regarding the societal implications of Generative AI, encouraging responsible AI development practices among participants.

Date: 14.03.2024

Participants: 253
