

DEPARTMENT OF INFORMATION TECHNOLOGY

REPORT

NATIONAL TECHNOLOGY DAY 2024

Session Topic: SIGNIFICANT MILESTONE IN THE COUNTRY'S HISTORY OF TECHNOLOGICAL INNOVATIONS

- Objective of the Program :** This event served to commemorate the nation's dynamic technological achievements and to inspire young minds to explore technology . To learn from India's remarkable scientific achievements.
- Benefits /Outcome of the Program:** This day glorifies the importance of science in day-to-day life and motivates us to adopt science as a field of career.
- Description:** The term technology has been derived from the Greek words **techne** and **logos**. **Techne** means the skill required to craft something and **logos** stands for knowledge or discussion about something. Technology thus means the **use of knowledge to create something to enhance life**. Several big and small things we use in our day-to-day lives have been an outcome of technological development.

Every year, **National Technology Day** is celebrated across India on **May 11**; being commemorated to memorize the anniversary of **Shakti, the Pokhran nuclear test held on 11 May 1998**. Notably, on this day, India successfully tested Shakti-I nuclear missile at the Indian Army's Pokhran Test Range in Rajasthan. Now technologies play an important role in human life. Thanks to modern technology, a lot of burdens have been lifted from our shoulders and we have more time and energy to do what we want to. We celebrated this day by conducting e-poster presentation contest and distributed prizes for the selected students.

- Organized on: 11-05-2024**
- Student Participants number: 103**
