Session Speaker: Karthik Nagapuri, Serial Entrepreneur who's building his 4th Venture EvolveX Space as Founder and CEO. AI Engineer, worked as Head of Technology and Who also worked with 15+ Brands and organisations in startup ecosystem.

Objective of the Program

Applying new ideas, methods and ways of thinking for startups.

It is the objective of this report to explore co-creation of a robust entrepreneurship ecosystem for small and micro enterprises of India.

Benefit in terms of learning/Knowledge obtained

Students were made aware of Start-up Ecosystem and how to venture into entrepreneurship various financial and management related awareness were made Prospective start-ups in the areas of various emerging technologies were made aware of, to the students. Fund related information and Funding agencies related information for new start-up were made aware of the students were made aware on how to innovate on the global problem rather than to focus on local problems.

To create awareness to the students regarding innovation ecosystem by transforming new ideas into reality through access and financial investment and how to create that ecosystem. The distinguishing factor in this year's Ranking framework is that categories are developed on the basis of population of States.

The categorization aims to: Bring uniformity in the evaluation process and bring all the States/UTs on a level-playing field. Furthermore, owing to learnings in previous editions, new reform areas have been identified which are aimed at capacity building, connecting mentors to startups as well as promoting comprehensive entrepreneurial growth. The 2020 Ranking Framework spans across seven reform areas imperative for the growth of a startup ecosystem: Institutional Support, Fostering Innovation & Entrepreneurship, Access to Market, Incubation Support, Funding Support, Mentorship Support and Capacity Building of Enablers. With a total of 26 Action Points, a combination of absolute, relative and feedback-based scoring is mapped to arrive at a holistic picture of the State/UTs support to their respective startup ecosystem. During the course of the States' Startup Ranking Exercise 2020, Startup India.
