

EVENT REPORT ON OPPORTUNITIES IN VLSI INDUSTRY

Date of the event Held: 30-09-2024

Organizer: Innovative Club, Department of ECE.

Venue/Place: Seminar Hall 2008, Block-D.

Number of students Participants (students and Staff):163

Description about the Event: On September 30, 2024, the Department of Electronics and Communication Engineering (ECE), through its Innovative Club, organized a seminar titled "Opportunities in VLSI Industry" at Seminar Hall 2008, Block-D. The event attracted 163 student participants, eager to learn about the potential of the VLSI (Very Large Scale Integration) industry. Mr. Rajender Singh, a trainer from Truechip Solutions, addressed the gathering, sharing insights on the growing demand for VLSI professionals and how students can align themselves with this field.

Mr. Singh discussed the role of VLSI in advanced technologies like AI, 5G, and IoT, highlighting the industry's relevance and future potential. The session was highly engaging, with students participating in a Q&A session that deepened their understanding of VLSI design, verification, and testing.

Outcome of the event: The seminar was informative, inspiring students to explore career opportunities in the core electronics sector.
