

**DEPARTMENT OF INFORMATION TECHNOLOGY**

**REPORT**

**Session Topic:Organized an Essay Writing Contest on “  
ENTREPRENEURIAL OPPORTUNITIES FOR GRADUATES” in  
association with II C 6.0**

- 1. Objective of the Program :** This event objective is to pursue entrepreneurial aspirations and understand better how to launch an enterprise. We are particularly keen to foster this entrepreneurial spirit among students who might not traditionally consider entering the world of business and further hope this competition encourage more young people.
- 2. Benefits /Outcome of the Program:** Essay competitions provide a concrete timeline and scope for your exploration, which can be helpful if you sometimes struggle with time management. Each one forces you to dig a little deeper into one of your possible interests. It's much more immersive than just half-heartedly leafing through books and research papers. Not only does writing help to improve your communication skills, but it also helps teach you how to think.
- 3. Description:** Most essay competitions are free to enter, and a good essay can be written based on your own ideas and public resources. They can be completed at any time and place, and panels will often accept entries from around the world. This is an essay competition on entrepreneurship- making sure how you understand what an entrepreneur is and does and show that you can think like an entrepreneur. This is not an economics essay. We want to see a demonstration of business and entrepreneurial ideas rather than A-level economics knowledge. Finally they could explain clearly defining concepts which would be understood by a general audience
- 4. Organized on:22-08-2024**
- 5. Student Participants number:88**
- 6. Students /Faculty Registration Details with timestamp:**
