

## EVENT REPORT ON INFOSYS SPRING BOARD MAKER LAB TRAINING

**Date of the event Held:** 19/10/2024 & 20/10/2024

**Organizer:** ECE Association

**Venue/Place:** CMR TECHNICAL CAMPUS

**Number of students Participants(students and Staff):** 41 students and 3 Faculty

**Description about the Event:** The Infosys Springboard Maker Lab Training was conducted at CMR Technical Campus (CMRTC) for II & III Year Electronics and Communication Engineering (ECE) students on 19th and 20th October. The two-day workshop provided hands-on experience in innovation and prototyping, focusing on skills like coding, IoT applications, and 3D printing. Students worked on real-time projects, gaining practical knowledge on using modern tools and technologies. The session aimed to enhance problem-solving and critical thinking skills, preparing students for future industry challenges.

### Outcome of the event :

The event was interactive, offering students valuable insights into emerging technologies and enhanced **technical proficiency** in IoT, coding, and 3D printing, along with improved **problem-solving** and **innovation skills** for the students, preparing them for industry challenges.
