**Industrial Visit cum Entrepreneurship orientation program for ECE, CSE&CSM students at National Small Industries Corporation (NSIC)-**

**Technical Services Centre Hyderabad. B.Tech ECE,CSE& CSM II & III  
Year 137 students and 6 faculty member from ECE &CSE started from  
CMR Technical Campus at 9:40AM and reached NSIC campus by 10:20am.**

**I) Srinivas Sarakadam Subject Expert NSIC explained about Concepts of Entrepreneurship, Traits of Entrepreneurship:**

**Topics Covered:**

- Concepts of Entrepreneurship
- Traits of Entrepreneurship
- Govt. Support for Entrepreneurship in Start-up India, Stand-up India, & Make in India
- How to setup your own Company-Process of Registration
- Various Schemes for raising the Funds like Mudra, PMEGP, CGTMSE
- Govt. Subsidies & Concessions, Incentives etc.,
- all related topics like customer services, Marketing etc.,
- Success Stories of Few Entrepreneurs
- Business with 1 crore investment is micro industry.
- Business with 10 crore investment is small industry.
- Business with 50 crore investment is medium industry

**STEPS FOR BUSINESS: -**

- First, we need Idea.
- Research about the idea 100%.
- Understand the do's, don'ts, pro's, con's of the idea.
- Without investment business is hard.
- But before investing start with basics.
- Branding is very important in Business.

➤ Our Brand name should be very unique.

## II) BUSINESS DOMAINS: CHOOSE ONE OF THEM

- Proprietorship: only 1 person will own and control the whole business.
- Partnership: Minimum 2 partners are required in partnership business. Here every partner will be sharing the risks and profits.
- Private limited: We need to be genuine and serious.
- One Person Company (OPC): He/she will act both as a director and a shareholder of the company.
- Limited Liability Partnership (LLP): A legal business structure that combines the benefits of a partnership and a company.
- once we are done with all the formalities, we need to provide a pitch deck which gives all the information about the company.
- We need to have an Aim, what we have conducted, Theme of the Business Model, timelines, Key parameters, Products etc.
- We need to make publicity. The best way to make publicity is by using influencers i.e. Influencers marketing company. The marketing or publicity of the products are done by influencers.
- so before starting business we need some amount for making a basic model. This can be earned through freelancing.
- The most important free-lancing websites are <https://www.upwork.com/> , <https://www.fiverr.com/> , <https://www.freelancer.in/> .
- In the above-mentioned websites we can do free-lancing and earn money. It will help us to upskill ourselves.

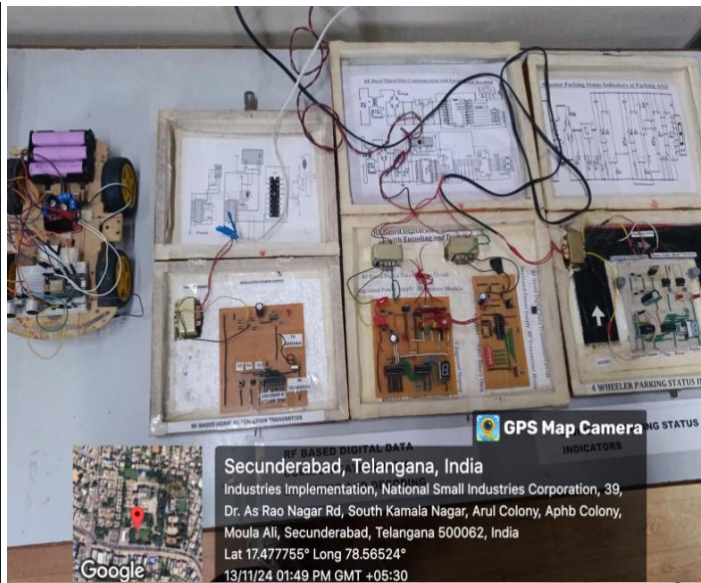

### **TIPS OF THE SESSION:-**

- 1. We can know the genuinity of any company using <https://www.mca.gov.in/content/mca/global/en/home.html>
- Website. It is a ministry corporation authentication.
- 2. As a fresher rating is very important in freelancing.
- So do not first demand the money, at least for 1<sup>st</sup> 10 jobs try to do without negotiating for money.
- 3. Once we get at least 10 good reviews we can try for negotiating.
- 4. While we are entering in a company for seeking job,
- The person [who is offering the job] will ask you about the experience, but to gain experience we should join in a company.
- 5. So we can overcome this situation using freelancing where we can find the skills and jobs as well.

### **iii) VISITED VARIOUS DEPARTMENTS IN NSIC:**

- Mr.S. Kaushik, Manager explained about the various training activities offered by the centre.

- Good interaction and solutions to the given problems by our students:
  1. The problem with Ola and Uber: When booking a cab or bike, it's often unclear whether the driver will pick us up or not. Additionally, there is a frequent issue with ride cancellations. During emergencies, especially between 2 AM and 4 PM, it becomes difficult to find available cabs.
  2. The issue of street dogs: Street dogs have become a significant problem in many areas.
  3. The problem with school bags: School bags for children are often overloaded, leading to potential health risks. We need to find solutions to reduce the weight of these bags.
