REPORT

Session Topic:Organized an Essay Writing Contest on “Global warming and climate change:The critical role of conserving energy resources” in view of NATIONAL ENERGY CONSERVATION DAY in association with II C 7.0

- 1. Objective of the Program :** objectives of efficient energy use among people. The celebration of this day aims to spread awareness about the importance of conserving energy and resources. It emphasizes the prudent use of energy rather than its wasteful misuse. .
- 2. Benefits /Outcome of the Program:** Essay competitions provide a concrete timeline and scope for your exploration, which can be helpful if you sometimes struggle with time management. Each one forces you to dig a little deeper into one of your possible interests. It’s much more immersive than just half-heartedly leafing through books and research papers. Not only does writing help to improve your communication skills, but it also helps teach you how to think.

National Energy Conservation Day is more than just a yearly event; it represents India’s collective commitment to sustainable energy practices. As the nation advances, embracing energy efficiency is crucial for a greener future.

By incorporating energy-conscious behaviours into daily life, India can continue to pave the way toward a sustainable tomorrow.

- 3. Description:** Most essay competitions are free to enter, and a good essay can be written based on your own ideas and public resources. They can be completed at any time and place, and panels will often accept entries from around the world. This is an essay competition on Global warming and climate change:The critical role of conserving energy resources” sure how you understand what an Global warming is and and show that critical role of conserving energy resources. This is not an economics essay. We want to see a demonstration of causes and consequences of global warming. Finally they could explain clearly defining concepts which would be understand by a general audience to make resources sustainability
