**Department of Electronics and Communication Engineering**  
**IIC (7.0) EVENT REPORT**

**Session Topic:** One-day workshop on Intellectual Property Rights titled “**GUARDING GENIUS: INTELLECTUAL PROPERTY IN A COMPETITIVE WORLD**” 2025.

**1. Objectives of the Program**

- To create awareness about different types of Intellectual property
- To educate participants on the importance of protecting creative and innovative work.
- To promote innovation and creativity by informing individuals and organizations about their legal rights.
- To guide on the procedures for filing and managing intellectual property.

**2. Benefits /Outcome of the Program**

- The Intellectual Property Rights (IPR) program aims to educate individuals, especially students and young innovators, about the importance of protecting their creative and innovative works.
- It helps participants understand various forms of IP such as patents, copyrights, and trademarks, and the legal procedures involved in securing them.
- The program encourages innovation by empowering individuals and organizations to safeguard their intellectual assets. It also highlights the risks of infringement and the benefits of IP commercialization.
- By promoting awareness and responsible use of intellectual property, the program contributes to economic development and fosters a culture of creativity, innovation, and entrepreneurship.

### **3.Description**

The Intellectual Property Rights (IPR) program is designed to create awareness about the protection and management of intellectual creations such as inventions, literary works, designs, symbols, and brand names. Aimed primarily at students, young innovators, and aspiring entrepreneurs, the program introduces participants to the various forms of IPR including patents, copyrights, trademarks, and trade secrets. It emphasizes the importance of securing these rights to protect originality and prevent unauthorized use or duplication.

Through workshops, seminars, and interactive sessions, participants learn about the legal processes involved in registering and maintaining intellectual property. The program also encourages the ethical use of others' IP and educates individuals on avoiding infringement. Moreover, it highlights the potential for monetizing intellectual property through licensing, commercialization, and partnerships.

By bridging the gap between creativity and legal protection, the IPR program empowers individuals to turn their ideas into valuable assets. It fosters an environment that supports innovation, entrepreneurship, and responsible creation. In the long term, such programs contribute to national economic growth by promoting research, development, and a competitive edge in the global market. Ultimately, the IPR program instills in young minds the value of innovation and the importance of protecting and respecting intellectual contributions.

**4.Organised On:** 24<sup>th</sup> APRIL,2025

**5.Students Participants Number:** 80
