Sub: Requesting Permission to Conduct a Session on "From Models to Dashboards: Bridging AIML with Power BI"

Respected Sir,

We, the AI Club, kindly seek your permission to organize a session on "From Models to Dashboards: Bridging AIML with Power BI" on 9th August 2025, from 09:20 AM to 04:00 PM in Alan Turing Lab (Lab No: 14 & 15).

This session, which will be conducted for both CSE (AI & ML) and CSD students, will be presented by Mr. G. Revanth, a Data Scientist at Sklassics Technologies Pvt. Ltd., with over 4+ years of experience in ML, DL, Computer Vision, Natural Language Processing, Generative AI, Power BI, and related fields. The session aims to provide students with valuable insights into the latest trends in AI and Data Science, featuring expert knowledge from both academia and industry.

We respectfully request your approval to proceed with the planning and execution of this event. We assure you that all necessary arrangements will be made to ensure a successful and engaging session.

Thanking you

Your Sincerely,
AI CLUB

FACULTY ADVISOR

Host Presentation

- Overview and expectations from the event.
- Impact of AI in the field of Data Science.
- AI Tools related to Data Science.
- Detailed discussion on the role of AI in transforming Data Science.
- Live demonstration of AI/ML model integration with Power BI.
- Hands-on workflow: From building models to deployment in dashboards.
- Real-world case studies on predictive analytics for business decision-making.
- Best practices in merging analytical models with visual storytelling.

03:00 PM - 04:00PM

Q&A Session: Open floor for audience questions.

End of the event.

Speaker details:

Mr. G. Revanth: speaker

G. Revanth is a skilled Data Scientist at Sklassics Technologies Pvt. Ltd., bringing over 4 years of experience across diverse domains including Machine Learning, Deep Learning, Computer Vision, Natural Language Processing, Generative AI, and Power BI.

He has worked on end-to-end data science solutions, contributing to impactful AI-driven projects and leveraging modern tools and techniques to solve real-world problems.

Revanth's multidisciplinary expertise enables him to bridge the gap between complex data science models and practical business applications.

As a passionate professional in the field, he remains committed to continuous learning and innovation in the rapidly advancing AI landscape.

REPORT

“FROM MODELS TO DASHBOARDS: BRIDGING AIML WITH POWER BI”

PROGRAM OBJECTIVES:

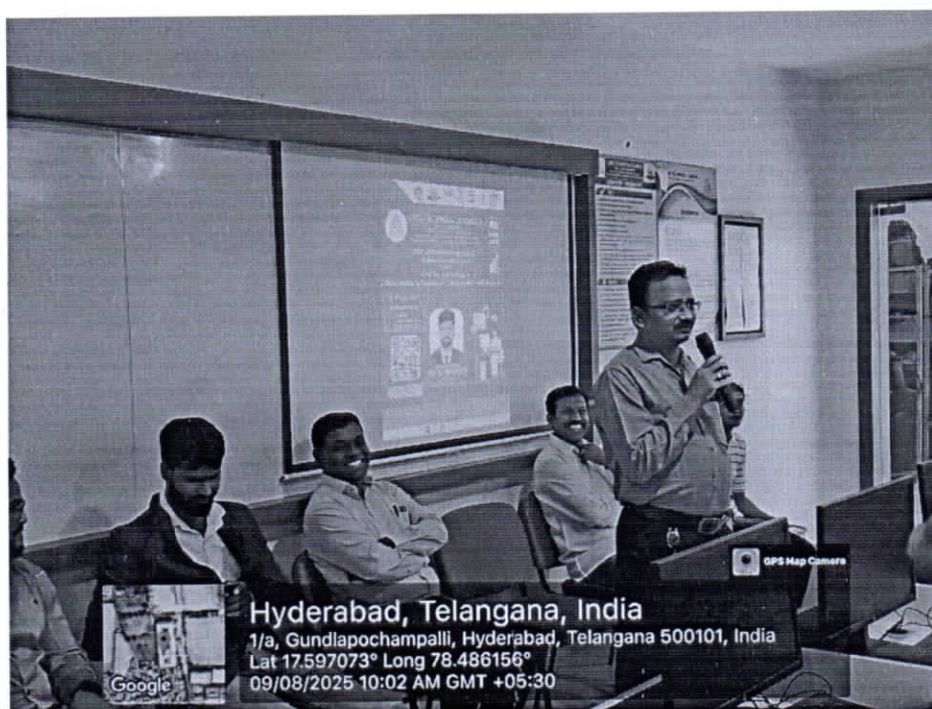

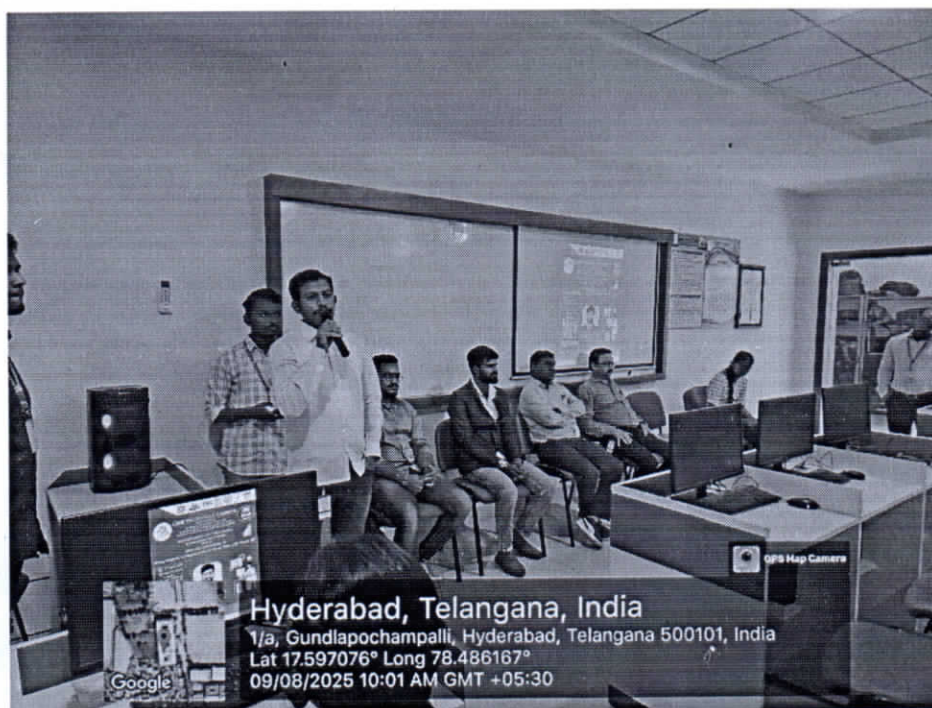

- To demonstrate how AI/ML models can be integrated with Power BI for effective data visualization.
- To showcase the end-to-end workflow from building machine learning models to deploying them within dashboards.
- To highlight real-world use cases where predictive analytics supports business decision-making.
- To simplify the connection between data science outputs and interactive BI tools.
- To promote best practices in merging analytical models with visual storytelling.

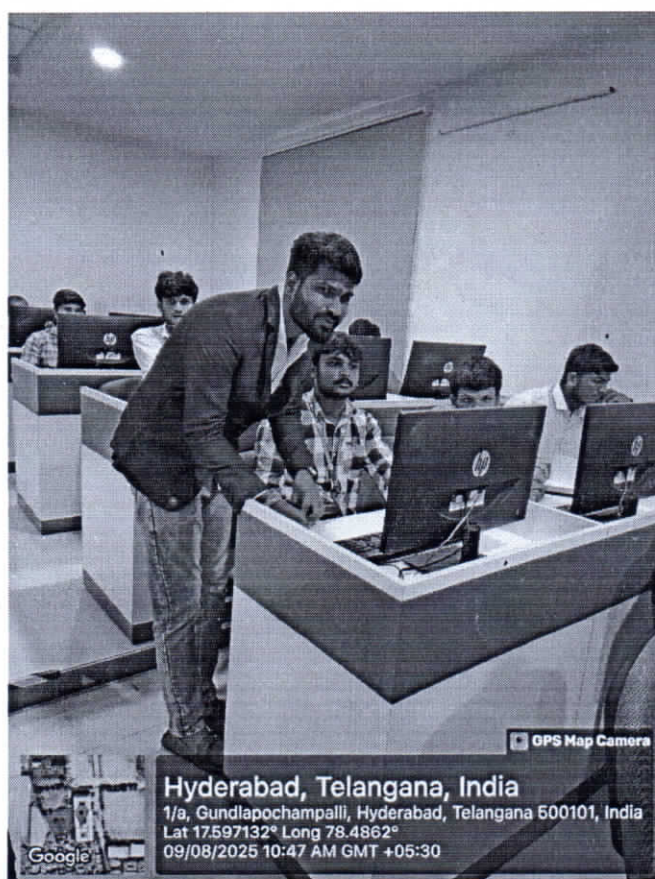

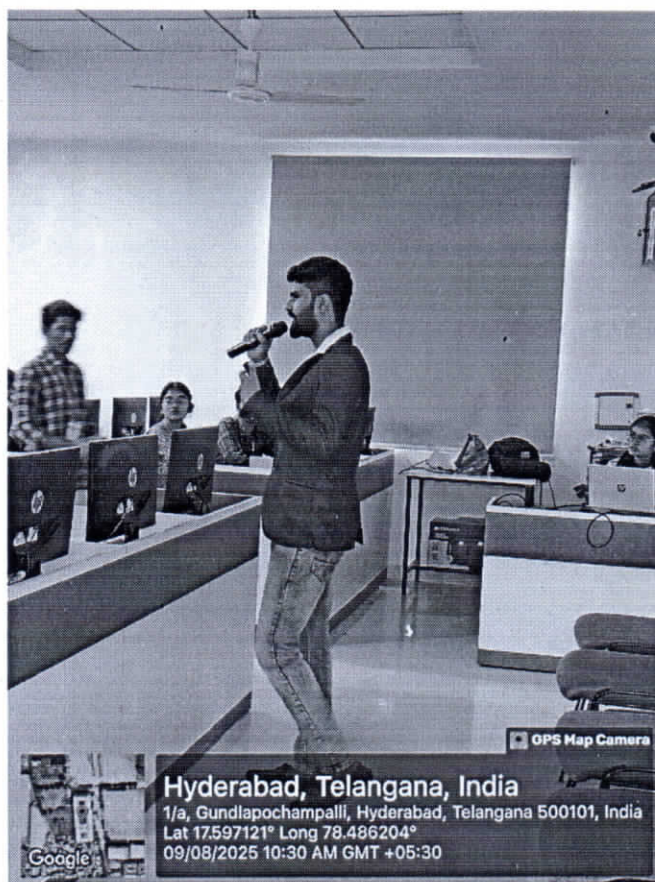

PROGRAM OUTCOMES:

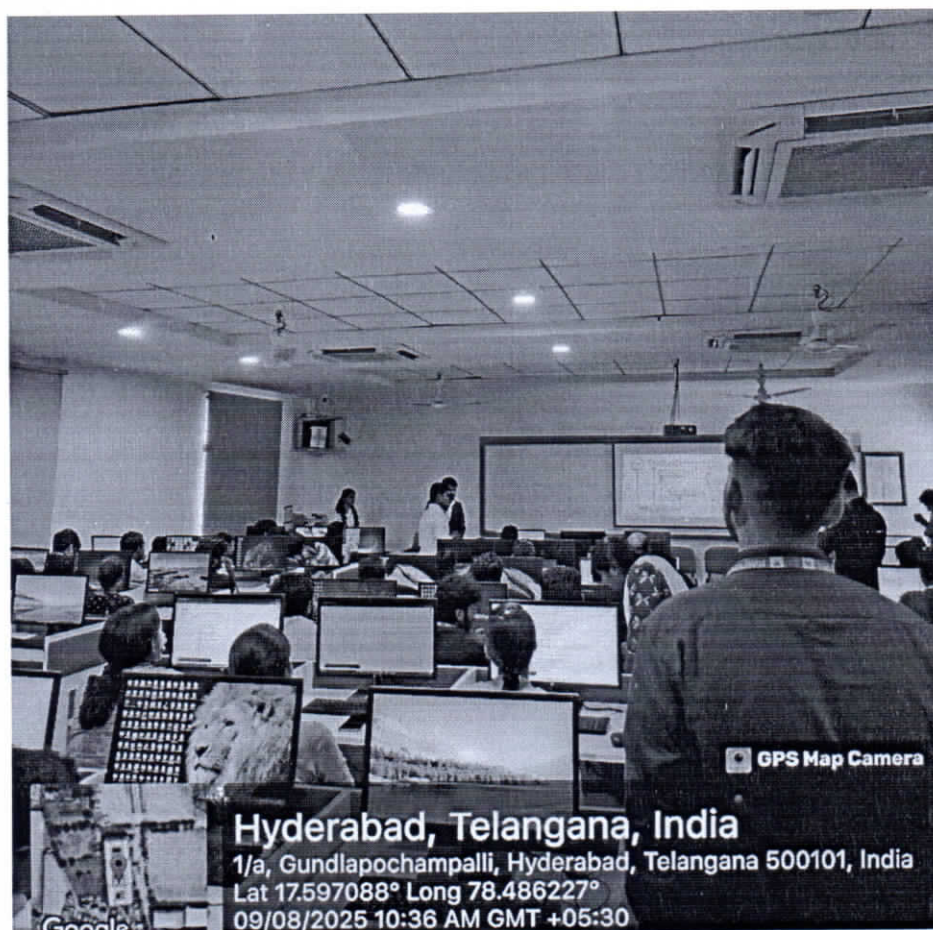

- Understand how Power BI can be used to visualize and interpret AI/ML model outputs.
- Gain practical knowledge on integrating Python/R-based ML models into Power BI dashboards.
- Learn to create dynamic, data-driven dashboards that incorporate predictive insights.
- Develop the ability to translate technical model results into actionable business intelligence.
- Acquire skills to build end-to-end data science solutions with embedded visual analytics.
