

EVENT REPORT ON NATIONAL ENERGY CONSERVATION DAY

Date of the Event : 14-12-2023

Venue : CMRTC

Organizer : NSS CMRTC

Program Officer : M. SAAHUL

Number of Participants : 100+

Description of the Event : On 14-12-2023, the NSS Unit, organized a National Energy Conservation Day Awareness Campaign with the objective of promoting energy efficiency and responsible energy usage across the campus. As part of the campaign, NSS volunteers actively interacted with students and staff, encouraging them to switch off lights, fans, and electrical appliances when not in use. The volunteers emphasized the importance of saving energy as a key step toward environmental sustainability and resource conservation. To reinforce the message, awareness posters highlighting the significance of energy conservation and simple daily practices were displayed at prominent locations across the campus. These visual reminders served to educate and motivate the campus community to adopt energy-efficient habits in their daily routines.
