
Title of the session	: An Expert Session on Design Thinking
Date	: Organized on 27 th February 2026
Duration	: 10AM-2PM
Activity Level	: IIC Self Driven Activity
Expenditure	: Rs. 5000/-
Activity Category	: IIC Activity (8)
Theme	: Design Thinking for Students and Entrepreneurs

Jury Details:

Name	: Dr. K. Vijay Chandra
Designation	: Assistant Professor, Dept. of EIE
Organization	: VNR VJIT, Hyderabad, Telangana, India
Brief about Expert/Speaker	: Centre for Design Thinking Member

Outcome of the Activity:

- Students understand the problems of increasing pollution in India.
- Students are able to know the factors for pollution upsurge
- Improvement in the cognitive thinking and presentation methods
- Betterment in communication skills
- Responsible professional behaviour and societal proactiveness.

Objectives:

- Introduce the design thinking process (empathy, define, ideate, prototype, test)
- Encourage creativity and innovative thinking
- Develop problem-solving and critical thinking skills
- Promote teamwork and collaboration
- Enable hands-on prototype development
- Create awareness about entrepreneurship and startup ecosystems
- Foster a user-centric approach to real-world challenges
- Support innovation and self-reliance mindset

Outcomes of the Design Thinking Session (IIC):

- Participants understood the design thinking methodology and its stages (empathy, define, ideate, prototype, test)
- Improved ability to identify real-world problems and analyze user needs
- Enhanced creative and critical thinking skills for generating innovative solutions
- Gained hands-on experience in idea generation and prototyping
- Developed teamwork and collaboration skills through group activities
- Improved communication and presentation skills while pitching ideas
- Increased awareness of innovation and entrepreneurship opportunities
- Ability to apply user-centric approach in solving practical problems
- Boosted confidence in developing and implementing new ideas
- Encouraged interest in start-up culture and innovation-driven projects

Event Description:

The Design Thinking event organized by the ECE Department in association with Institution's Innovation Council (IIC), CMR Technical Campus, Hyderabad, is aimed at fostering innovation, creativity, and problem-solving skills among students. The objectives of such an event are typically aligned with experiential learning and real-world application of ideas. The primary objective is to introduce participants to the design thinking process, which includes stages such as empathy, problem definition, ideation, prototyping, and testing. This helps students understand how to approach complex problems in a structured and user-centric manner. Another key objective is to encourage innovative thinking and creativity. The event provides a platform for students to generate unique ideas and solutions to real-life challenges, especially in areas like healthcare, environment, and technology. It motivates participants to think beyond conventional methods and explore new perspectives. The event also aims to develop problem-solving skills by engaging students in hands-on activities. Participants learn how to identify real-world problems, analyze user needs, and design practical solutions. This process enhances critical thinking and decision-making abilities.

Participant Details:

Total No. of Students Participated: 45

Total No of Faculty Participated:03
