Brief Description of Session:

The Department of Computer Science & Engineering, in association with the Institution's Innovation Council (IIC 8.0), organized "Innovation Showcase : Prototypes" at CMR Technical Campus. The activity provided a common platform for students to demonstrate working prototypes, explain the problem addressed, present the technical approach adopted, and discuss the practical usefulness of their ideas. Faculty members and institutional leadership interacted with the student teams, reviewed the exhibits, and encouraged the participants to convert their concepts into impactful projects, start-up ideas, and socially useful solutions.

Expert/Evaluation:

Objective of the activity:

- To provide a structured platform for students to present innovative prototype-based solutions.
- To strengthen problem-solving, design thinking, creativity, and product development skills among students.
- To encourage interdisciplinary learning and real-time demonstration of student innovation.
- To motivate students toward entrepreneurship, incubation, and future product development.
- To create interaction between students, faculty members, and institutional innovation leaders for constructive feedback

Outcome of the activity:

- Students gained confidence in presenting and defending their prototype ideas before faculty and reviewers.
- The event improved communication, teamwork, technical demonstration, and application-oriented thinking.
- Participants received motivation to refine their ideas for competitions, incubation, mini projects, major projects, and start-up initiatives.
- The showcase strengthened the innovation culture within the department and promoted visible student engagement in prototype development.
