EVENT REPORT ON CERTIFIED HEDERA WORKSHOP

Date of the event Held: 13 & 14 October, 2025.

Organizer: IDS Blockchain

Venue/Place: Room – 248 C-Block, CMR Technical Campus

Number of students Participants: 100

Number of Faculty Participants: 5

Description about the Event: Blockchain Workshop was a structured two-day technical event focused on distributed ledger technologies and their practical applications. The workshop featured a total of eleven modules, with the first three conducted on Day 1 and the remaining eight on Day 2. Each module was designed to progressively build knowledge and hands-on experience in blockchain fundamentals, smart contracts, tokenization, and governance models. The sessions provided in-depth exposure to key blockchain concepts, including consensus mechanisms, decentralized applications (Dapps), and secure transaction processing. Participants engaged in interactive demonstrations and implementation exercises, gaining familiarity with industry-relevant tools and frameworks. The curriculum emphasized real-world use cases, enabling a deeper understanding of blockchain's role in digital transformation and secure data ecosystems.

Outcome of the Event: The workshop successfully enhanced participants' foundational and practical knowledge of blockchain technology. Attendees gained hands-on experience with key components such as smart contracts, token creation, and decentralized applications. The structured module-based approach enabled a clear understanding of blockchain architecture, consensus mechanisms, and governance models. By the end of the event, participants were better equipped to explore real-world blockchain solutions and contribute to secure, decentralized digital ecosystems.

Sub: Permission for IDS Workshop on 13th & 14th October 2025

Respected Sir,

We, the students of the CSD Department, are planning to conduct an IDS Workshop on 13th and 14th October 2025.

The workshop will focus on Hedera, where representatives will explain about their website, blockchain technology, and cryptocurrency concepts to enhance students' practical knowledge and understanding of decentralized systems.

We kindly request you to grant us permission and attendance to participate in this workshop.

Thanking you.
